upvisit

More visitors through digital experiences on-site.

Make your venue digitally tangible, send your visitors on an interactive multimedia journey of experience and develop your hometown into an experience region.
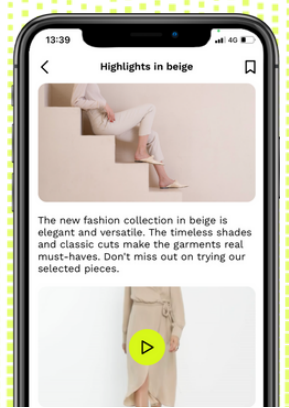

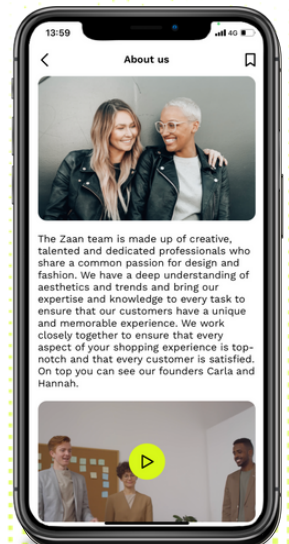

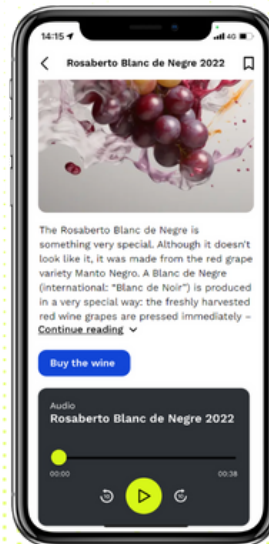

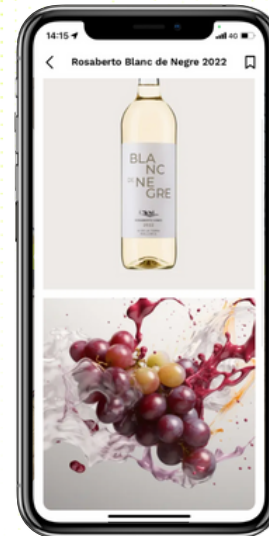

Places around the globe share the same pressing challenges like you

- You want to attract more visitors to your city or physical facility?
- You want to deliver a personalized experience that keeps up with the online world?
- You need to create experiences that people recommend their friends?
- You want to generate additional revenues and profits with digital help?
- You need to know the visitors, how to keep them loyal and make them return?
- You don't want an expensive, risky solution, that takes forever to be implemented?
- You don't have the capacity to create delightful content?

Welcome to UpVisit! We make places explorable.

Your App for 169€ | month

More than a place-app

UpVisit.io is an innovative platform that enables you to offer on-site digital experience for your physical places, increase your visibility, and boost sales - immediate, easy to use, affordable. Discover how UpVisit.io can transform your store today!

## Make your place an interactive experience.

We connect your city or location with good storytelling and our technology: impart knowledge, present products, show your brand / city / region - with the help of 3D models, augmented reality, indoor / outdoor navigation and much more, your visitors dive deep into the stories you have to tell.

More experience, more visitors, more insights.

Our features allow you to tell your story and expertise digitally and emotionally - visitors become fans and come back again and again. Extensive insights give you valuable information about the behavior of your visitors (GDPR-compliant) and allow you to continuously optimize your content.

74% more conversions

when a digital device is involved in an offline journey

We enable you to...

- **activate** your visitors with high-quality digital content that enhances the on-site experience.
- create additional **conversions** through returning visitors.
- gain comprehensive **insights** into visitor behavior and content usage.
- keep your visitors through memorable on-site experiences, targeted notifications and **recommendations**.

Why our clients love us

- We bring them more visitors through our platform visibility.
- Inspired customers become fans and promote their stores.
- They develop a permanent connection with their customers.
- Based on valuable customer insights they optimize their assortment according to their customers needs.
- They make additional sales due to a connected journey.
- Only 3 days until they are live.

Best practice: 60% of visitors are using UpVisit

Three steps to your digital experience.

1.Create interactive content in no time.

Our intuitive content management system with live preview allows you to add content to your venue in minutes - simply upload audio guides, floor plans, videos and more. Our system is AI-infused, so time-consuming content creation was yesterday .
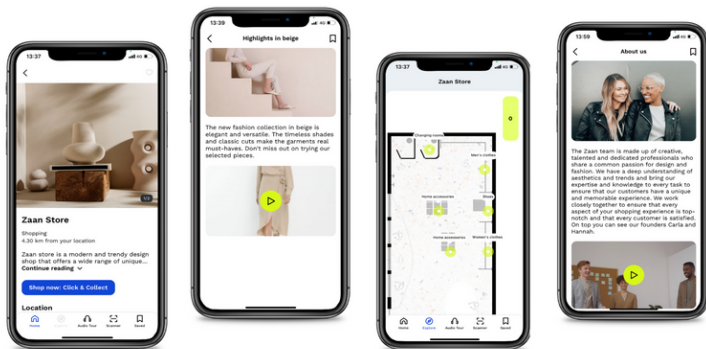

UpVisit creates your content

2. Download the QR-Kit.

Our content management system automatically creates your personal media kit in the background. In no time at all, you can distribute QR codes in your premises and bring visitors to your app.

3. Visitors access your content.

After scanning your QR code on site, your interactive multimedia content appears in the front end - your place is now explorable. You can add new content at any time.
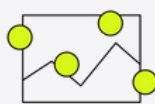

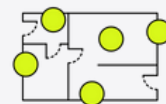

An extract from our feature set:

|				
Audio Guide	Gamification	Enriched Images	Shop Connection	3D Floor Plans
Usage Analysis	QR Code Scanner	Video Upload	Augmented Reality	Watchlists

Make your place a converting digital experience. Now!
